SHORT CV

Anton Baranov

Anton Baranov is a Professor at the Department of Mathematics and Mechanics, Saint Petersburg State University, where he has held a full professorship since 2012. Since 2018, he has also served as Head of the Chebyshev Laboratory. His main research interests are complex analysis, harmonic analysis, and operator theory.

He graduated with honours from Saint Petersburg State University in 1999. He received the Candidate of Sciences degree in 2003 from the Saint Petersburg Branch of the Steklov Mathematical Institute of the Russian Academy of Sciences, under the supervision of V. P. Havin, and a Ph.D. in Mathematics from the University of Bordeaux in 2005, under the supervision of N. K. Nikolski. In 2011, he obtained the Doctor of Science (Habilitation) degree from the Saint Petersburg Branch of the Steklov Mathematical Institute. He was an Associate Professor at Saint Petersburg State University from 2004 to 2012 and held a postdoctoral appointment at the Royal Institute of Technology (KTH), Stockholm, in 2005–2006.

His distinctions include the Young Mathematician Prize of the Saint Petersburg Mathematical Society (2004), a French Government fellowship (2003–2005), a Göran Gustafsson postdoctoral fellowship at KTH (2005–2006), and a Dynasty Foundation Fellowship for Young Mathematicians (2013). He was an invited speaker in the Analysis and PDE section of the 7th European Congress of Mathematics in Berlin in 2016.
