

Goran Popivoda
Associate Professor

University of Montenegro, Faculty of Natural Sciences and Mathematics

Goran Popivoda (b. 1984, Cetinje, Montenegro) is an Associate Professor at the Faculty of Natural Sciences and Mathematics, University of Montenegro. He earned his B.Sc. in Mathematics and Computer Science in 2007, M.Sc. in 2010 (*Wiener Process*), and Ph.D. in 2017 (*Extremes of Conditionally Gaussian Processes*), all from the University of Montenegro.

His research focuses on probability theory, extreme value theory of Gaussian processes, and mathematical chemistry (various topological indices: Wiener index, Zagreb indices, Arithmetic-geometric index, Multiplicative Sum Zagreb index etc).

He teaches courses in probability, statistics, stochastic processes, Markov chains, and applied statistics in pharmacy and engineering.
